HELLO! I AM

YOUSSEF Eltayel

Youef Mohamed Eltayel | 01101525105

ABOUT ME

I AM A SOFTWARE ENGINEER, AI DEVELOPER, AND TECHNOLOGY INNOVATOR PASSIONATE ABOUT BUILDING INTELLIGENT SOFTWARE, ENGINEERING DIGITAL PRODUCTS, AND EXPLORING NEW POSSIBILITIES AT THE INTERSECTION OF ARTIFICIAL INTELLIGENCE AND SOFTWARE DEVELOPMENT. AS THE FOUNDER AND CEO OF FORKED FD, THE ORGANIZATION BEHIND TALOS GROUP, I FOCUS ON TRANSFORMING AMBITIOUS IDEAS INTO PRACTICAL TECHNOLOGICAL SOLUTIONS THAT ADDRESS REAL-WORLD CHALLENGES.

MY WORK REVOLVES AROUND SOFTWARE ENGINEERING, AI-POWERED DEVELOPMENT, DATA SCIENCE, AND DIGITAL PRODUCT INNOVATION. I AM PARTICULARLY INTERESTED IN REDEFINING HOW SOFTWARE IS DESIGNED, DEVELOPED, AND DELIVERED BY INTEGRATING ARTIFICIAL INTELLIGENCE INTO DEVELOPMENT WORKFLOWS, SIMPLIFYING COMPLEX PROCESSES, AND CREATING TOOLS THAT EMPOWER DEVELOPERS TO BUILD MORE EFFICIENTLY.

WITH EXPERIENCE SPANNING MORE THAN 40 PROJECTS AND A PORTFOLIO OF 35+ CERTIFICATES AND TRAINING CREDENTIALS, I HAVE CONTINUOUSLY EXPANDED MY KNOWLEDGE ACROSS COMPUTER SCIENCE, PYTHON DEVELOPMENT, WEB TECHNOLOGIES, ARTIFICIAL INTELLIGENCE, AND DATA ANALYTICS. BEYOND ENGINEERING, I BRING A CREATIVE PERSPECTIVE TO MY WORK THROUGH UI/UX DESIGN, GRAPHIC DESIGN, AND VIDEO PRODUCTION, ALLOWING ME TO APPROACH DIGITAL PRODUCTS FROM BOTH A TECHNICAL AND A VISUAL STANDPOINT.

LEADERSHIP & INNOVATION

AS THE FOUNDER AND CEO OF FORKED FD, I AM BUILDING A TECHNOLOGY-FOCUSED ORGANIZATION CENTERED ON INNOVATION, SOFTWARE ENGINEERING, AND AI-DRIVEN PRODUCT DEVELOPMENT. MY GOAL IS TO CREATE AN ENVIRONMENT WHERE AMBITIOUS IDEAS CAN EVOLVE INTO MEANINGFUL DIGITAL PRODUCTS.

SOME OF THE PROJECTS I WORK ON INCLUDE:

- FORKED AI: AN AI-FOCUSED PROJECT EXPLORING INTELLIGENT PROGRAMMING ASSISTANCE, PROBLEM-SOLVING, ADVANCED RESEARCH, AND REASONING TO ENHANCE SOFTWARE DEVELOPMENT WORKFLOWS.
- CODAK AI: A PROJECT DESIGNED TO SIMPLIFY SOFTWARE PROJECT CREATION AND HELP TRANSFORM IDEAS INTO APPLICATIONS AND DIGITAL PLATFORMS THROUGH AI-POWERED DEVELOPMENT.
- TALOS GROUP: A TECHNOLOGY INITIATIVE OPERATING WITHIN THE FORKED FD ECOSYSTEM, FOCUSED ON SOFTWARE PROJECTS, DIGITAL INNOVATION, AND EXPLORING NEW APPLICATIONS OF EMERGING TECHNOLOGIES.

THROUGH THESE INITIATIVES, I AIM TO EXPLORE HOW INTELLIGENT SYSTEMS CAN GO BEYOND CONVENTIONAL TOOLS AND BECOME PRACTICAL COLLABORATORS IN THE PROCESS OF BUILDING TECHNOLOGY.

TECHNICAL EXPERTISE

SOFTWARE ENGINEERING & WEB DEVELOPMENT

I WORK ON BUILDING INTERACTIVE WEB APPLICATIONS AND DIGITAL EXPERIENCES USING JAVASCRIPT, REACT, AND MODERN FRONT-END TECHNOLOGIES. I AM INTERESTED IN SOFTWARE ARCHITECTURE, MAINTAINABLE CODE, RESPONSIVE INTERFACES, AND CREATING APPLICATIONS THAT BALANCE FUNCTIONALITY WITH USABILITY.

ARTIFICIAL INTELLIGENCE & AI-POWERED DEVELOPMENT

I EXPLORE THE INTEGRATION OF AI MODELS AND APIS INTO SOFTWARE PRODUCTS, WITH A FOCUS ON INTELLIGENT APPLICATIONS, AI-ASSISTED PROGRAMMING, AUTOMATED WORKFLOWS, AND PRACTICAL PROBLEM-SOLVING. I AM PARTICULARLY INTERESTED IN HOW AI CAN IMPROVE THE SOFTWARE DEVELOPMENT LIFECYCLE AND MAKE ADVANCED CAPABILITIES MORE ACCESSIBLE.

PYTHON DEVELOPMENT & DATA SCIENCE

PYTHON IS ONE OF MY PRIMARY TOOLS FOR SOFTWARE DEVELOPMENT AND TECHNICAL EXPERIMENTATION. I WORK WITH LIBRARIES SUCH AS PANDAS, NUMPY, AND MATPLOTLIB FOR DATA PROCESSING, ANALYSIS, AND VISUALIZATION, ALONGSIDE SQL AND DATABASE TECHNOLOGIES FOR MANAGING AND WORKING WITH STRUCTURED DATA.

CROSS-PLATFORM APPLICATION DEVELOPMENT

I DEVELOP APPLICATION CONCEPTS USING PYTHON AND TOOLS SUCH AS FLET, EXPLORING WAYS TO BUILD FUNCTIONAL, ACCESSIBLE APPLICATIONS THAT CONNECT USER INTERFACES, BACKEND SERVICES, APIS, AND INTELLIGENT FEATURES.

UI/UX DESIGN & DIGITAL MEDIA

I USE FIGMA TO EXPLORE INTERFACE DESIGN AND USER EXPERIENCE, CANVA FOR VISUAL COMMUNICATION, AND ADOBE PREMIERE PRO AND ADOBE AFTER EFFECTS FOR VIDEO EDITING AND MOTION GRAPHICS. I BELIEVE THAT STRONG ENGINEERING AND THOUGHTFUL DESIGN SHOULD WORK TOGETHER TO CREATE COHESIVE DIGITAL EXPERIENCES.

MY VISION

I BELIEVE THE FUTURE OF TECHNOLOGY IS NOT SIMPLY ABOUT WRITING MORE CODE; IT IS ABOUT RETHINKING HOW PROBLEMS ARE APPROACHED, HOW SYSTEMS ARE DESIGNED, AND HOW INTELLIGENT TOOLS CAN EXPAND WHAT PEOPLE ARE CAPABLE OF BUILDING.

MY LONG-TERM VISION IS TO CONTRIBUTE TO THE EVOLUTION OF SOFTWARE DEVELOPMENT THROUGH AI-POWERED SOLUTIONS, INNOVATIVE DIGITAL PRODUCTS, AND ENGINEERING PRACTICES THAT PRIORITIZE REAL-WORLD VALUE. I APPROACH EVERY PROJECT AS AN OPPORTUNITY TO LEARN, EXPERIMENT, CHALLENGE CONVENTIONAL APPROACHES, AND TURN IDEAS INTO SOMETHING TANGIBLE.

I DO NOT SEE TECHNOLOGY AS A DESTINATION, BUT AS A CONTINUOUSLY EVOLVING FIELD OF POSSIBILITIES. MY AMBITION IS TO BE PART OF THE GENERATION THAT DOES NOT MERELY ADAPT TO THE FUTURE OF TECHNOLOGY, BUT ACTIVELY CONTRIBUTES TO BUILDING IT.

I AM NOT JUST INTERESTED IN BUILDING SOFTWARE. I AM INTERESTED IN REDEFINING WHAT WE CAN BUILD WITH IT

EXPERIENCES

1- Founder & CEO – Forked FD

Technology Leadership · Software Development · AI Innovation

Leading the vision and development of a technology-focused organization dedicated to software engineering, AI-powered development, and digital product innovation. Working on transforming ideas into practical software solutions and building an ecosystem of technology initiatives.

2- Software Engineer & AI Developer

Technology Leadership · Software Development · AI Innovation

Designing and developing software applications, web platforms, and AI-powered solutions using Python, JavaScript, React, APIs, and data analysis tools. Focused on problem-solving, application development, and integrating intelligent capabilities into digital products.

EDUCATION

1- Secondary Education

High School · Egypt · Present

TSS SCHOOL

2-Professional & Technical Learning

Online Learning · Certifications & Training

TOPPROJECTS

Forked AI

An AI-focused project exploring intelligent programming assistance, reasoning, research, and problem-solving to enhance software development workflows.

Codak AI

A project designed to help transform natural-language ideas into software projects and applications through AI-assisted development.

BioGuard

An environmental technology initiative focused on biodiversity, environmental awareness, and exploring digital tools for monitoring and addressing environmental challenges.

Chrodis

A healthcare application concept designed to support chronic disease management through health information, reminders, healthcare service discovery, and AI-assisted interactions.
